Sounds good, thank you.

Can we discuss the week of 17th? I am away next week.

Cheers,

Melinda

Hi Melinda

Would this event involve students?

I think it may be possible for Hill's to sponsor the catering component. What kind of costs were you thinking.

They would require recognition of course (verbal at event and on any printed material) and I would normally invite a Hill's rep to attend an event they were supporting.

Perhaps we can discuss further when you have a moment?

Kind regards

Ellaine

Hi Ellaine,

VPL5 takes place over 2.5 years and encompasses all the extramural clinical experience that the students undertake. Next year, due to the impost of placement contracts, Cristy and I will need to organise a workshop/social event for our participating practices in order to try to get them to accept this change. The plan is that this will involve seminars, food, drink, and some OSH

training.
Could some Hills funds be put into this event?
Kind regards,
Melinda Bell

Hi Melinda

I am currently negotiating the sponsorship agreement for Hill's. They are interested in the VPL program and currently support VPL1, 2 & 3 in various ways. They are interested in the later years also.

Can you please explain what happens in the VPL5 program so I can determine if we can utilise Hill's funding in this program in any way.

Hope you can help.

Kind regards
