Hi Ellaine,

We haven't needed catering but there are some sessions that are just before lunch so that could work. Once I know whether or not the budget has been approved I'll let you know.

Thanks

Gabby

Hi Gabby

Is there any catering component? Just thinking that Hill's could support that.

When you have your budget set for this program for 2013, can we have a chat to see how much funds you need, and how we can help.

Other than that, perhaps Hill's could sponsor an appropriate session or sessions?

Kind regards

Ellaine

Hi Ellaine,

I have attached last years timetable so you can see. 2013 should be similar and I have applied for part time teaching funds to cover some speakers. I only pay them lecturing rates (from the part time teaching categories which I don't have on me) so I am limited in where the speakers come from (all within Perth metro area). Any support would be great!!

Gabby

Thanks Gabby.

How many speakers do you get in over the year.
What kind of topics do they present on.
Do you have a budget for this program to pay for speakers etc?

Ellaine

Hi Ellaine,

VPL IV is a series of invited speakers that present for either an hour or in a workshop. Most of the speakers are from outside the university but some are from other areas within Murdoch.

What information do you need, more specifically?

Gabby

Hi Gabby

I am currently negotiating the sponsorship agreement for Hill's. They are interested in the VPL program and currently support VPL1, 2 & 3 in various ways. They are interested in the later years also.

Can you please explain what happens in the VPL4 program so I can determine if we can utilise Hill's funding in this program in any way.

Hope you can help.

Kind regards

Ellaine Hislop
