DEANS OF VETERINARY SCHOOLS, VETERINARY ASSOCIATIONS AND COMPETENT AUTHORITIES

Dear Sir,

PET FOODS' INSIDIOUS CONSEQUENCES

The magnitude of the consumer fraud involved in the force-feeding of small domestic carnivores with processed 'food' is beginning to be seen as an international disgrace. As guardians of animal health and the public interest it is time that the veterinary profession took account of its complicity in this frightful business.

As a responsible authority I respectfully request that you initiate the appropriate steps for the determination and correction of this mighty wrong. Please keep me informed of your opinions and progress. Please advise as to matters in which I may assist.

Yours faithfully,

Tom Lonsdale
